PERFORMANCE BENCHMARKS

402.13F – Structure Protection

Discipline: Wildland/Urban Interface FF

Effective: 8/5/2014

Revised:

Replaces:

Anne Huff, Fire Chief

I. Objective

The firefighter will describe the methods to reduce the threat of fire exposure to improved properties given a wildland/urban interface fire.

II. Instructions – Procedures for Achieving the Objective

Given a wildland/urban interface fire scenario, and using the Incident Response Pocket Guide (IRPG) and or Fire Line Handbook, you will describe the methods to reduce the threat of fire exposure to structures. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

III. Examiner's Note

The firefighter will not be allowed to review the performance steps at the time of testing. To meet the skill steps evaluation criteria the firefighter shall identify, describe, and explain the importance of each of the standard safety and operational policies and procedures.

IV. Preparation & Equipment

- A. Incident Response Pocket Guide (IRPG)
- B. Fire Line Handbook
- C. Wildland fire scenarios

V. Reference Sources

- A. NFPA 1051, Sections 5.1.1 and 5.3.2.
