Communicating the Status of the Planned Response

Discipline: Hazmat – Operations Level  
Effective: 3/5/2011  
Revised:  
Replaces:

*Anne Huff, Fire Chief*

I. Objective

Given two scenarios involving hazardous materials/WMD incidents, including the incident action plan, the operations level responder shall communicate the status of the planned response through the normal chain of command and shall meet the following requirements:

- A. Identify the methods for communicating the status of the planned response through the normal chain of command.
- B. Identify the methods for immediate notification of the incident commander and other response personnel about critical emergency conditions at the incident.

II. Instructions – Procedures for Achieving the Objective

Given scenarios involving hazardous materials/WMD incidents, including the incident action plan, you shall communicate the status of the planned response through the normal chain of command and identify the methods for immediate notification of the incident commander and other response personnel about critical emergency conditions at the incident. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

III. Examiner's Note

The responder will not be allowed to review the performance steps at the time of testing. The responder must participate in at least two scenario evolutions.

IV. Preparation & Equipment

- A. Hazardous materials incident scenarios
- B. Standard Operating Guidelines

V. Reference Sources

See Reference Sources in PB 406.02A.
